

Flashcard Study Project

Success Criteria

- Users can create flashcards with the question and answer
- Users can study flashcards using a flip-card system
- Users can earn points while going through the deck

Description

- Is a flashcard study website.
- Can create flashcards by entering questions and answers.
- Includes a point system to make it more engaging.
- Different characters can be unlocked with points.

Design Choices

- Used HTML, CSS, and JavaScript to keep the project simple and easy to modify/add to.
- Chose a single-page layout so all features are available in one place.
- Kept the interface simple so users can focus on studying.

Thank You
